Application Guide

	Application	Important features	Product
Universal application	Fresh red meat Processed meat Frozen fish Non gassing cheese	High barrier Standard shrinkage Standard puncture resistance Overlapped sealing with extraordinary seal strength Outstanding optics	HB-L
Universal application High shrinkage	Fresh red meat Processed meat Frozen fish Non gassing cheese	High barrier High shrinkage Moderate puncture resistance Overlapped sealing with extraordinary seal strength Outstanding optics	HB-LX
Universal application Improved puncture resistance	Hard and heavy products Fresh red meat Processed meat Frozen fish	High barrier Standard shrinkage Improved puncture resistance Overlapped sealing with extraordinary seal strength Outstanding optics	HB-M
High Abuse application	Hard and heavy products Fresh bone-in red meat Processed bone-in meat	High barrier Moderate shrinkage High puncture resistance Overlapped sealing with extraordinary seal strength Outstanding optics	HB-H
Extreme Abuse application Premium puncture resistance	Very hard and heavy products Fresh bone-in red meat Processed bone-in meat	High barrier Moderate shrinkage Premium puncture resistance Overlapped sealing with extraordinary seal strength Outstanding optics	HB-X
Pasteurisation/ Cooking	Pasteurisation surface pasteurisation	High barrier Standard shrinkage Improved puncture resistance Overlapped sealing with extraordinary seal strength Temperature resistance: up to 30 min at 91 °C	HB-M PT
Fish and poultry	Frozen red meat, poultry, fish	Controlled gas barrier and improved WV barrier Premium shrinkage Moderate puncture resistance Overlapped sealing with extraordinary seal strength Outstanding optics	CB-LX
Ripening cheese	Medium/high gassing cheese	Selective O ₂ barrier and CO ₂ permeability Improved shrinkage Standard puncture resistance Overlapped sealing with extraordinary seal strength Outstanding optics	SB-L
Ripening cheese Premium shrinkage	Medium/high gassing cheese	Selective O ₂ barrier and CO ₂ permeability Premium shrinkage Moderate puncture resistance Overlapped sealing with extraordinary seal strength Available as transparent and colored	SB-LX
